

Associate Structural / Façade Engineer

Take the next step towards Partner.

RICKARD ENGINEERING is an established consultancy practice with over 30 years' experience in Australia providing quality civil, structural and façade engineering services with 50% of work interstate/overseas. The practice is involved in a number of landmark projects in Australia and worldwide: UK, USA, New Zealand, Middle East and Asia. The Head Office in Australia is located in Neutral Bay. Refer to website: www.rickardengineering.com

An opportunity has become available for an ambitious person with the appropriate technical structural and façade engineering skills to step into a leadership role in our practice.

The Role

The position of "Associate Structural / Façade Engineer" involves the day-to-day management of a team of engineers, project management (including budget management) and client relationship management.

The role provides many exciting opportunities to work on interstate and international projects. You will lead and mentor the team of engineers with your technical expertise.

The Person

You will be looking to take the next step in your career with an ambition to become partner within the company as the next logical step. You will have excellent communication skills, be able to develop and maintain relationships both internally and externally and provide innovative solutions for our clients. Key to your success in the role will be your ability to input into the future direction of Rickard Engineering and our success going forward.

Qualifications, Skills and Experience

- Tertiary Engineering Qualification in Civil / Structural Engineering.
- Ideally chartered or working towards CPENG status.
- Experience in design of steel structures, concrete structures and facade.
- Knowledge and understanding of Australian design Codes and Standards.
- Experience using engineering software including SpaceGASS, STRAND7, INDUCTA, AutoCAD (or similar software)
- Ability to analyse and design either with or without computer software.
- Ability to work under pressure and to tight deadlines.

All applicants must be either Australian citizens or permanent residents.

Only applicants required for interview will be contacted.

Please email your CV to careers@rickardengineering.com

Note: Unsolicited resumes from recruitment agencies and any related fees will not be accepted.
